

## Education:

- **Vignan University, B. Tech – Computer Science with Cyber Security Specialization**
    - Year of Passing – 2025, CGPA – **7.5**
  - **Inter College – MPC Sri Chaitanya junior college, Vijayawada**
    - Year of Passing – 2021, CGPA – **8.9**
  - **10<sup>th</sup> – Tiny Tots high school, Narasaraopet**
    - Year of Passing – 2019, CGPA – **9.8**
- 

## Key Skills:

C, Python, Java, HTML, CSS, SQL, LINUX

---

## Projects:

- **Secure Structural Health Monitoring Systems Using Cybersecurity Testbeds: (IOT)**
  - Cybersecurity testing, risk assessment, security implementation, penetration testing, secure communication protocols, incident response, compliance, and collaborative work in the context of securing structural health monitoring systems.
  - Technologies used: Real-time health monitoring system, Piezoelectric sensors, Arduino UNO, Deflection.
- **Fake product identification: (Solidity)**
  - Developing blockchain-based solutions for product authentication and anti-counterfeiting using Solidity smart contracts, emphasizing your understanding of blockchain technology, smart contract development, access control, data storage, abstraction, user interface integration, and security practices.

## Certifications:

- NPTEL Certifications:
    - Privacy and Security in Online Social Media
    - E-Business
  - HackerRank Certifications:
    - Problem Solving (Basic, Intermediate)
    - Python (Basic)
    - Java (Basic)
  - Coursera Certificates:
    - Google Cybersecurity
  - Pragmatic Approach to Cyber Security by CDAC Hyderabad
  - Ethical Hacking Workshop at IIT Hyderabad
- 

## Extra-curricular activities:

- Serving as a **NSS Lead** (Chief Coordinator) in UEAC at Vignan University.
- Volunteering events at Vignan University
